

ALLATOONA CREEK GREENWAY TRAIL STUDY

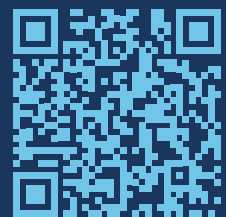

WELCOME TO COMMUNITY OPEN HOUSE #2

Welcome to the second Community Open House for the Allatoona Creek Greenway Scoping Study! We have a **trail** of stations set up to browse at your own pace. Learn about feedback we've received to date, potential trail typologies, trail safety, and proposed alignments!

This is an opportunity to provide input on those alternatives to help determine which advances onto the next phase of preliminary engineering. Team members and County staff are on-hand to guide you through the stations, provide information, and help answer questions if needed!

PROJECT BACKGROUND

Cobb County is conducting a scoping study for the proposed Allatoona Creek Greenway Trail. The greenway is one of eight proposed priority projects in the County's Greenways & Trails Master Plan. During the study, the County will provide several opportunities for you to weigh in with feedback on trail features and design considerations you would like to see. The study seeks to provide safe multimodal access to community destinations along the Allatoona Creek corridor!
